Jump-start

Jump-start entrepreneurship of agro-industrial sector in rural areas focusing on craft and local products

In this issue:

- 1- TPM Kraków
- 2- Multiplier Events
- 3- Project Conclusion

Project Newsletter

TPM Kraków

Between November 22nd and 23rd, 2023, partners convened in Kraków, Poland, for the conclusive Transnational Partner Meeting. The gathering proved successful, leaving all partners with a profound sense of fulfillment.

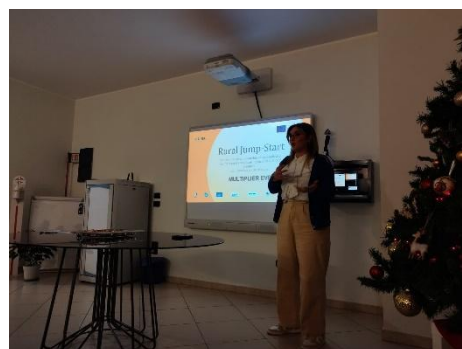

Project development ...ect on the project's journey with sincere appreciation as we approach its conclusion.

2. Multiplier Events

As we near the project's conclusion, it's time to highlight our remarkable achievements. In December and January, Partners organized Multiplier Events across all participating countries, and these events have been incredibly successful. The positive inputs and feedback received during these events instill confidence in the project's potential post-consortium. Showcasing our results has been an honor, and witnessing the enthusiastic reaction from stakeholders is truly gratifying.

The purpose of the fifth newsletter from the Rural Jump-Start project is to offer a progress update, showcase recent meetings, and provide a concluding report on the project's culmination.

3- Project Conclusion.

With a mix of joy and nostalgia, we conclude our partnership, marking the final stage of the Rural Jump-start Project Partnership. Over the past couple of years, we united to pursue a common goal, and now it's time to share the wealth of brilliant materials developed with all stakeholders and communities. As we enter this concluding phase, we take pride in the positive impact we've made on the entrepreneurial path of the agro-industrial sector. From the Transnational Meetings to the Multiplier Events, and from the Local Action Report to the Online Platform, every step has allowed the project to thrive and has contributed to the growth of all partners involved. We've successfully achieved the targets set at the project's inception! This endeavor has had a profound impact on our organizations, and we believe it can make a significant difference. All partners express deep gratitude for this opportunity!
